Mayor Bunker reminded Council Members that this matter had been discussed and approved at the meeting held June 20, 2013 but, inasmuch as it was not an agenda item at that meeting, the approval needs to be ratified at this time. Council Member Tom Stephenson declared that he is manager of the establishment and will not participate in discussion of nor vote on the matter.

MAYOR GAYLE BUNKER: REVIEW OF FOURTH OF JULY CELEBRATION

Mayor Bunker asked Council Members for comments or observations regarding the celebration. Council Member Stephenson heard from a person who was not happy that 50 South Street was closed to traffic but all other comments were positive. Other Council Members reported positive comments. Many people enjoyed the flyover by local pilots in place of the military flyover, which was cancelled due to federal budget constraints. There were also several complaints about kids getting too close to the parade entries and the possibility of having walkers alongside parade entries in the future. It was suggested that we may lose some parade entries if walkers were required. Council Members felt that the set up for the fish catch was better this year and it went smoother. Council Members decided to consider requiring walkers alongside parade entries next year.

PUBLIC WORKS DIRECTOR ALAN RIDING: UPDATE ON PUBLIC WORKS PROJECTS

In the absence of Public Works Director Alan Riding, Assistant Public Works Director Ken Clark reported that Public Works employees have been working on cleaning up from wind damage on the night of July 4th, which resulted in numerous limbs being down in the parks and other places. He reported that the Sherwood Water Project is still waiting on the boring company to get the pipe pulled under Gunnison Bend Reservoir. They have had multiple equipment failures and the pipe has not yet been put in place. Other than problems with the boring project, everything else is in place on the Sherwood Water Project. We have meters and boosters in place and have done readings.

Assistant Public Works Director Clark reported receiving numerous requests that some of the patriotic hats worn by City personnel during the Fourth of July celebration be available for purchase as souvenirs. Council Member Pratt reported he had also had someone wanting a hat like he was wearing during the celebration.

Assistant Public Works Director Clark reported the fuel system at the airport is finally up and running. A new circuit board needed to be installed in order to complete the repairs.

Public Works employees will be working on storm drains for the community center project and begin chip sealing some streets on August 5th. Assistant Public Works Director Clark noted that the Council had previously discussed purchasing some security cameras for the park but it was decided that cameras would not be purchased at that time. Public Works Department employees would like to obtain bids for purchase of security cameras at this time in order to better monitor activities at the City Park. We are experiencing some problems with graffiti and damage in the park area.

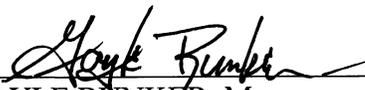

Council Member John Niles requested that Public Works employees be told how much they are appreciated and compliment them on doing a great job.
